---

Conducting measurements on LEDs, Optics and Luminaires.

---

Currently, we are looking for you to join our department as a long-term support in performing aging experiments on LEDs and luminaire (components).

## **What is it about:**

- Conduction photometric measurements on LEDs, optics and whole luminaires
- Supervision of aging test setups
- Assisting at minor electrical and mechanical task

## **What you bring along :**

- Independent and reliable way of working
- Interest in measurement technology
- Basic knowledge in electronics is desirable
- Basic programming knowledge is desirable

## **What we offer:**

- No employment on short-term contracts
- Direct insight into the daily scientific laboratory routine
- Involvement in current research and industrial projects
