

Research Assistant

Research Assistant Control of scientific papers

Research Assistant - Control of scientific papers for the International Symposium on Automotive Lighting

This job involves checking scientific papers submitted to the International Symposium of Automotive Lighting for formatting and preparation for publishing.

You will have the opportunity to read exciting papers in the field of automotive lighting technology at the forefront of automotive research and innovation.

In addition, a position as an assistant at the symposium in September will be waiting for you.

Desirable prerequisites

- Good working knowledge of Microsoft Word
- Good English reading and writing skills
